Many years of research conducted by The Gallup Organization suggest that the most effective people are those who understand their strengths and behaviors. These people are best able to develop strategies to meet and exceed the demands of their daily lives, their careers, and their families.

A review of the knowledge and skills you have acquired can provide a basic sense of your abilities, but an awareness and understanding of your natural talents will provide true insight into the core reasons behind your consistent successes.

Your Signature Themes report presents your five most dominant themes of talent, in the rank order revealed by your responses to StrengthsFinder. Of the 34 themes measured, these are your "top five."

Your Signature Themes are very important in maximizing the talents that lead to your successes. By focusing on your Signature Themes, separately and in combination, you can identify your talents, build them into strengths, and enjoy personal and career success through consistent, near-perfect performance.

## Discipline®

Your world needs to be predictable. It needs to be ordered and planned. So you instinctively impose structure on your world. You set up routines. You focus on timelines and deadlines. You break long-term projects into a series of specific short-term plans, and you work through each plan diligently. You are not necessarily neat and clean, but you do need precision. Faced with the inherent messiness of life, you want to feel in control. The routines, the timelines, the structure, all of these help create this feeling of control. Lacking this theme of Discipline, others may sometimes resent your need for order, but there need not be conflict. You must understand that not everyone feels your urge for predictability; they have other ways of getting things done. Likewise, you can help them understand and even appreciate your need for structure. Your dislike of surprises, your impatience with errors, your routines, and your detail orientation don't need to be misinterpreted as controlling behaviors that box people in. Rather, these behaviors can be understood as your instinctive method for maintaining your progress and your productivity in the face of life's many distractions.

## Achiever®

Your Achiever theme helps explain your drive. Achiever describes a constant need for achievement. You

feel as if every day starts at zero. By the end of the day you must achieve something tangible in order to feel good about yourself. And by “every day” you mean every single day—workdays, weekends, vacations. No matter how much you may feel you deserve a day of rest, if the day passes without some form of achievement, no matter how small, you will feel dissatisfied. You have an internal fire burning inside you. It pushes you to do more, to achieve more. After each accomplishment is reached, the fire dwindles for a moment, but very soon it rekindles itself, forcing you toward the next accomplishment. Your relentless need for achievement might not be logical. It might not even be focused. But it will always be with you. As an Achiever you must learn to live with this whisper of discontent. It does have its benefits. It brings you the energy you need to work long hours without burning out. It is the jolt you can always count on to get you started on new tasks, new challenges. It is the power supply that causes you to set the pace and define the levels of productivity for your work group. It is the theme that keeps you moving.

## Consistency®

Balance is important to you. You are keenly aware of the need to treat people the same, no matter what their station in life, so you do not want to see the scales tipped too far in any one person's favor. In your view this leads to selfishness and individualism. It leads to a world where some people gain an unfair advantage because of their connections or their background or their greasing of the wheels. This is truly offensive to you. You see yourself as a guardian against it. In direct contrast to this world of special favors, you believe that people function best in a consistent environment where the rules are clear and are applied to everyone equally. This is an environment where people know what is expected. It is predictable and evenhanded. It is fair. Here each person has an even chance to show his or her worth.

## Responsibility®

Your Responsibility theme forces you to take psychological ownership for anything you commit to, and whether large or small, you feel emotionally bound to follow it through to completion. Your good name depends on it. If for some reason you cannot deliver, you automatically start to look for ways to make it up to the other person. Apologies are not enough. Excuses and rationalizations are totally unacceptable. You will not quite be able to live with yourself until you have made restitution. This conscientiousness, this near obsession for doing things right, and your impeccable ethics, combine to create your reputation: utterly dependable. When assigning new responsibilities, people will look to you first because they know it will get done. When people come to you for help—and they soon will—you must be selective. Your willingness to volunteer may sometimes lead you to take on more than you should.

## Analytical®

Your Analytical theme challenges other people: “Prove it. Show me why what you are claiming is true.” In the face of this kind of questioning some will find that their brilliant theories wither and die. For you, this is precisely the point. You do not necessarily want to destroy other people’s ideas, but you do insist that their theories be sound. You see yourself as objective and dispassionate. You like data because they are value free. They have no agenda. Armed with these data, you search for patterns and connections. You want to understand how certain patterns affect one another. How do they combine? What is their outcome? Does this outcome fit with the theory being offered or the situation being confronted? These are your questions. You peel the layers back until, gradually, the root cause or causes are revealed. Others see you as logical and rigorous. Over time they will come to you in order to expose someone’s “wishful thinking” or “clumsy thinking” to your refining mind. It is hoped that your analysis is never delivered too harshly. Otherwise, others may avoid you when that “wishful thinking” is their own.
